# Star Cushions

## Traditional Air Cell Cushion

Traditional Air Cell Cushions are high quality, latex-free neoprene air cell cushions and available in 2", 3", 4" and 5" heights and sizes from pediatric to bariatric.

## Galaxy Cushion

The Galaxy Cushion is comprised of shaped cells to provide immediate immersion, support and skin protection.

## StarLock Cushion

StarLock Cushions are comprised of the patented Cell Lock technology which allows the user to lock the transfer of air between nearly every cell in the cushion for a fully customizable air cushion.

## Custom Cushion

Star pride themselves on providing custom shapes and sizes and getting them to the user quickly.

## Stabil-Air Cushion

The Stabil-Air Cushion is the newest cushion in the Star range. It combines the skin protection benefits of air with an internal layer of contoured foam for a shell of stability and backup skin protection.

## Support Surface

The adjustable Support Surfaces provide maximum immersion, ideal skin protection, and a cost-effective solution for pressure ulcer prevention and healing.
